SUMMARY

Full Stack Developer with hands-on experience in building modern and responsive web applications using Next.js, React, Node.js, and PostgreSQL. Proven track record delivering projects such as the learning platform E-Raport PAUD, Web Konversi Mata Kuliah, Dua Putra, and many more. Passionate about crafting scalable solutions, staying ahead with the latest web technologies, and exploring opportunities in data science.

WORK EXPERIENCE

Fullstack Developer, PT Inovasi Karya Resman (INKARE) Jan 2025 - Present

- Developed and maintained web applications using Next.js, React, Node.js, PostgreSQL, MongoDB, and MySQL, ensuring responsive design and optimal performance.
- Implemented RESTful APIs and integrated database solutions to support scalable features.
- Collaborated with cross-functional teams to gather requirements, design UI/UX, and deliver solutions on time.
- Continuously researched and adopted new technologies to enhance project quality and development efficiency.

Backend Developer, UIN SGD Bandung Sep 2024 - Dec 2024

- Architected and developed robust RESTful APIs using NestJS framework, implementing clean architecture principles and domain-driven design
- Developed efficient database schemas and queries using TypeORM with PostgreSQL, optimizing query performance by 40%

Frontend Developer, Freelancer Apr 2024 - Jun 2024

- Working on the E-Reporting Project for PAUD
- Responsible for implementing designs that have been created by web designers or design teams

EDUCATION
